Subject: Estate E Stiliano - Accounts from Treloar and Treloar

Dear Sir

Re: Estate E Stiliano - Accounts from Treloar and Treloar

I have been given a copy of these accounts from Philip Stilianos, and I have had time to study and fully acquaint myself with details of each item.

I find it quite obvious that Public Trustee - Treloar and Treloar - Probate Registrar - and the Executors of the Estate were in collusion in launching a personal attack on Philip Stilianos - the beneficiary of the Estate - to defraud him of his inheritance.

I have yet to find anything that Philip has done to warrant such an attack - apart from trying to protect what is rightfully his - and should have been completed long before this had it been in the hands of more competent, professional and honest legal advisers.

It is my belief that The Public Trustee Mission is to assist and guide the beneficiary and care for the Estate but that has not happened in this case, or does it happen at all.

You ask for permission to pay Treloar and Treloar Account, that is a definite no.
